Dear Humanity First,

Thank you for the reading comprehension kits and sight words language master cards. I enjoyed the activities it helped me to read better. I had fun using the kits. I would want to use them everyday I come here. I loved it. I am going to buy me some activities for me to practice. Oh, thank you for the master cards they helped me learn new sight words.

Love,
Hayla

Dear Humanity First,

Thank you for caring about my education at Sarah T. Reed. We are a poor school that has to have teachers spend most of their paycheck on getting us worksheets and books to do our work. If I could give you something greater than a letter I would, but I can't so I hope you like this letter from a student who would have graduated high school without even knowing what to do when you are dissecting an animal. I can't thank you enough for all the joy you have brought to me. So

Happily,
Tanisha
Dear Humanity First,

Dear Humanity,

First, my name is Torey thanks for the books that you all have given us. My favorite book is Hatchet. Hatchet is one of the best books that I have ever read before. Without the help from you guys giving us books I would have never got the chance to read Hatchet. Hatchet is an emotional story. It's about a boy name Bryant who parents divorced and he was flying a plane to visit his dad. The pilot died while flying the and the plane crashed because Bryant tried to fly the plane. Bryant was in a rainforest all by himself but the only thing he had was a Hatchet. So once again thank you guys for purchasing books for us.

From,

Torey

Sydricisha
